

Product Datasheet

Part Code: 10-600-100-01

2.4GHz Digital Wireless Microphone

Key Features

- 95 available channels in 2400 ~ 2483 MHz range
- Up to 1500 ft range line of sight
- Audible and LED indicators for operation status
- Better audio quality
- Charger status indicator
- Audio MUTE on/off key on transmitter
- Auto Link function
- Record on/off key on transmitter
- System on/off control from receiver side
- Transmitter power on/off switch
- Low battery indicator on transmitter
- Link LED indicator (Receiver & Transmitter)
- Various mode indicator(Beep -> Vibration -> Beep & Vibration -> No indicator)

Specifications

Frequency Bandwidth	2400 ~ 2483MHz
Number Of Channel	95 CHANNELS
Channel Space	0.880MHz(2.4GHz)
Speech Coder	32Kbps ADPCM with parity
Type Of Modulation	GFSK
Data Rate	32Kbps
Frame Time	10ms Transmit / 10ms Receive
Tx Power Levels	250mW
Receiver Sensitivity	-90dBm
Talking Time	12Hours Typical
Battery Quick Charging Time	3Hours
Battery Capacity	Lithium-Ion-polymer 3.7V DC / 1400mA
